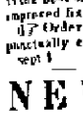
COMMERCIAL HOTEL,

Corner of Wall and Water Streets.....Bangor



THE subscriber would respectfully give notice to his friends and the public, that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its vicinity is central and convenient for persons visiting the city on business, and for those intending to take the steamers, being near the steamboat landing.

Child-Birth Made Easy.

TO MOTHERS!

YOU who are expecting to undergo the serious and important duty of bearing offspring, reflect upon the trials, troubles and dangerous risks that are before you; *and then learn*, that by the gift of Providence and the light of Science, a sure remedy for these consequences is known; by the use of which thousands are now performing the duties of Mothers with ease and safety, *and with a perfect freedom from all pain or subsequent disease.*

This remedy was discovered by the celebrated Dr Boedicque, of Paris, and has been in use in France for the last ten years with the greatest success—being approved by the Royal Academy of Science in Paris. Dr. A C Mortimer is the sole agent for the U. S., and he sends this medicine by Mail, to any part of the Country, and the Genuine can be obtained of no one but him.

Price Two Dollars a package, containing full directions

Persons desirous of obtaining this *Great Remedy* who reside at a distance, can do so by forwarding *Two Dollars*, post paid, to

Highly Important to Farmers.

HAVING purchased the right to use BOMERS Method of making MANURE in all the towns in the County, not previously disposed of, west of Penobscot, and south of Piscataquis, rivers, I am ready to sell the same, by towns or individual rights, as may best suit purchasers

When it is taken into consideration, that one ton of dry straw can, in the space of 12 days, be converted into from six to eight loads of rich unctuous manure fit for corn-hills;—that green vegetables and turf, can be made into manure of equal value, in ten days—and that the high temperature produced by fermentation destroys all obnoxious seeds; this invaluable method may be fairly considered as forming a new era in Agriculture! That the foregoing results have been frequently realized by Bommer's process, I am prepared to show by testimony from scientific and practical farmers in various sections of the country.

Single rights will be sold for the moderate price of four dollars, and the purchaser will be furnished, (gratuitously) with a book describing the process—making the foregoing, together with many other kinds of compost manures, hitherto unknown in this part of the country. To those who purchase by towns, or to private companies, my terms will be as low as in any other section of the State

Persons, at a distance, by forwarding four dollars (post paid), will be promptly furnished with a single right and book as aforesaid.

AMERICAN AND FOREIGN OFFICE.

And Agency of the U. S. Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in England and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and do as they can, as well as all personal trouble in obtaining their patents. The experience of fifteen year's practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

Whig and Courier.

John S Hayward,—Editor.

MONDAY, FEBRUARY, 14, 1848.

Heads of the Committee.

Every year discloses, more and more, the responsible and important position of the chairman of the leading committee of the two houses of Congress—they are the organs of communication between the executive and legislative departments of the government The Whig party being in the ascendency in the House of Representatives the confidential persons in communication with the President and Secretaries, are necessarily the chairman of the Senate committees

In a state of war the chairmin of the committees of foreign Relations, of the Military of the Navy, of the Militia, and of the Judiciary, hold the most important posts

I have never occurred to you to enquire, who fill these high places in the Senate, and what great State interests they represent? From the above named committees originate all the great measures which involve our national expenditures Mr Sevier, from Arkansas, a State with one representative in the House presides over our foreign relations Upon all treaties and negotiations he restores power to the country must be referred In representing a State that for more than six years, has wholly neglected to pay one dollar of the principal or interest of its public debt and laughs its credit in the face In case money is to be raised to carry on the war Arkansas would contribute, if she paid her honest quota not to exceed one dollar out of every two hundred and they required to be raised or about eighty five thousand out of twenty millions Mr Ashley from the same State, presides over the Judiciary to him would be referred all judicial questions arising out of the belligerent attitude of the two countries—the right to levy contributions in Mexico, &c &c

Mr Cass of Michigan presides over the military committee, which originated the bills calling for the immense army expenditures He comes from a State with three representatives—a State which has also allowed its public credit to be dishonored and its debt to remain unpaid

Mr Yulee hails from the State of Florida with one representative He presides over the naval committee a State which, when a Territory, contracted large debts, and substantially repudiated them

Mr Rusk of the new State of Texas over the mouth of the Rio Grande a State though it makes no offer of pay ment, it is understood has suggested to do so upon some with its creditors at about ten cents on a dollar, upon a long credit

When these distinguished gentlemen find themselves hard pressed on the Senate, they call to their aid the Senators from Mississippi, Indiana, and Illinois, who are never behind hand in urging the outlay of large sums for the war—Such are the confidential organs to communicate with the President and his cabinet: Will any they say—drive on this war—the whole of Mexico—it is our destiny—curse the expense!

It reminds me of the famous game supper given by some of the gentlemen of this city, who invited their most responsible and most respectable acquaintances to the entertainment—piled them with delicious viands, fruits, and wines but alas the invited guests were left to foot the bills—Washington Correspondent of N Y Herald

☞ The first number of the second volume of the Daguerreotype has been laid upon our table by the agents Messrs George R Smith & Co It is as neat as a pin—so smooth and clear that it is pleasant to get hold of it The quality of the matter is calm, substantial rather too translucid and severe to suit the wild, hurrying, popular taste of the people who read literature as they chew tobacco or smoke, for the excitement of the thing, rather than for substantial support We hope to see the Daguerreotype prosper, and that, rather by an assimilation of the popular tastes to its sober depths, than a change, to learning excitement, on the f

☞ Mr Cass explains the 'security for the future which the President wants in reference to a treaty with Mexico, to be, the keeping a body of troops in Mexico until peace is guaranteed—It has all along been stated that the guarantee must be against an unstable Government and an obstinate people, so it at looked then, it comes to this that the President is willing to make a treaty of peace providing full indemnity for the past, and the right of maintaining an army in Mexico as security for the future That is a great want, certainly

☞ The particular kink of the Locofocos just now is, to continue the war, and absorb the whole of Mexico, under the pretext, that they are only trying to prevent the Whigs from forcing our army to retreat from Mexico The Washington Union got up this bit of deceptive pleading and the locos pressers snap at it as pickerel do young frogs Our neighbor of the Democrat will probably turn off a half column of drivelle on the pot L

Law Reporter—*February* 1848

This work, which a few months since passed from the editorial charge of our friend Chandler into that of Stephen H Phillips, Esq appears to have lost none of its midgest by the change so far at least as we are able to judge from the specimens we have already received It continues to be a highly valuable medium of legal matter to the profession and justly worthy of a liberal patronage—The leading article of the present number is a sound discussion on the adjustment of partial loss on profits in which the subject is very ably discussed and the principles settled and briefly recited

The opinion of the Court of Queen's Bench in the case Regina v Chadwick is also given in which the Court held all marriages void which are contracted between any individual and his former wife's sister—an opinion which has produced so great excitement in certain circles among Her Majesty's subjects

David Paul Brown's Forensic Rules for the examination of witnesses, is a most valuable collection of rules worthy the careful study of every member of the profession

☞ Capt McGruder and Gen Shields were entertained at Richmond, Va, a short time since, with a public dinner Both gentlemen spoke in the highest terms of the ability of General Scott Captain McGruder said, the army had trusted him and he had trusted the army

The recall of General Scott is producing considerable sensation in the States

☞ The Commercial Chronicle says—"We are informed by a friend, that on Tuesday night, as a man was in the act of removing a dead body from one of our grave-yards, he was shot at and wounded

Some of the English coal mines have been extended to a depth of more than 220 fathoms below the surface

☞ The following article is from the pen of Ammon Webber, Esq, a well known Democrat and true friend of his country We copy it from the Christian Citizen —

The War Debt, what it is, and how it must be paid.

If the war between the United States and Mexico should be closed this year, 1848, the whole account of the debt of the former, when finally made, could not be less than $150,000,000 All connected in this estimate, as the lowest that can be reasonably entertained This debt cannot be paid off at once Our national expenditures will be, for a long series of years, greatly augmented by this war Our army has been greatly enlarged, and a host of officers have received appointments, and a large pension list has been created A long and dangerous frontier will require a military force hitherto unknown in this country The consequence of all this will necessarily be that our annual expenditures will swell much beyond our revenue, and leave but little towards paying off the debt with the addition of the *millions of dollars* in interest which *must be paid annually* We may safely assume that the whole debt will not be paid off in a less *average period* than twelve and a half years—equivalent to 25 years equal instalments

This a very favorable supposition

Now then the annual debt is	$150,000,000
12½ years' interest thereon must be paid on the per cent, is	112,500,000
Whole amount which the government must collect of the people	$262,500,000

But this is not all the people must pay, as we shall see if we examine the manner in which they pay it

The whole revenue is raised by duties charged on foreign goods which the importer pays in the first instance, and then charges upon the cost of his goods, together with a profit on the duties, to the jobber, who in turn charges a profit on the whole cost, including the duties, sold to the retailer, who again charges a profit upon the whole, and sells to the consumer who foots the bill paying all the cost, all the duties, and all the profits charged upon each To make this more plain we will illustrate, in the following manner —

Suppose a shawl from England	$100
Importer pays 25 per cent. duties	25
	125
On this he charges a 10 per cent. profit	12,50
	137,50
And sells to jobber at	12 75
The latter charges 10 per cent profit	9,06
	151,81
And sells to the retailer at	15,25
The retailer charges 10 per cent.	2,65
	167,75
And it costs the wearer	5,18

We see, then by the above illustration, that the consumer pays for the shawl with duties, and the profits charged on the duties, which the merchants always do charge, and from the nature of the transaction always ought to charge —and we always do think that the duties would cost the consumer only

Difference when reduced in consequence of the duties	3 79
Of his amount there goes into the national treasury	2,50
Leaving as balance of which the consumer has paid, but the government has not received, that is the consumer has paid 50 per cent more duties in this item, than the government has acquired, and this difference has gone into the pockets of the merchant	1,29

Now, what is true of the shawl, is true of the silk for a dress, the cloth for a coat, sugar, molasses or any other articles on which we pay duties Where the treasury gets one dollar, the people by this mode of paying taxes, do actually pay one dollar and a half

Let us, however, for the sake of avoiding all cavil, suppose that we have estimated the profits of the merchant too high, and that the aggregate of all their profits is only thirty three and one third per cent instead of 50 What then will it cost the good hard working people, (for the tax being upon articles consumed, come hardest of it will come out of the laboring classes, to pay off these glory bills

Whole debt	150,000,000
12½ years interest at 6 per cent is	112,500,000
	262,500,000
Add then one third & the manner in which the tax is paid that is, for the profits paid the merchant	87,500,000
	$350,000,000

We then have the cleven sum of $350,000,000 which at the lowest calculation, the people will be compelled to pay! And this enormous tax ation is not to be assessed on *property* but upon mouths and backs, and the man who has got the most mouths to feed and backs to clothe, has got to pay the most of the debt—not the man who has got the most real estate, and stocks, and money!

These facts are worthy of consideration by the American people We might make our reflections upon this subject, we might call to mind the cruelty of such a tax, and the operation it will have on the millions of families in our land—depriving them of that comfort and convenience which but for this dreadful taxation they might enjoy—but we forbear! The money, we, the people, *must pay*, we cannot help it now, not with the present intelligence of community, can we expect that it will be paid by direct taxation No—we must pay all and pay it in a manner the most expensive and unjust But if it shall lead us to see the folly and wickedness of the way, and its disastrous influence on the morals and happiness of the people, some good may yet come of the great calamity which has befallen our nation

☞ We have received Numbers 195 and 196 of Littell's Living Age from Messrs G R Smith & Co These are interesting numbers and make a very agreeable appearance

☞ Messrs Crosby & Nichols reprint of the Playmate No 6 has been furnished us by Messrs G R Smith & Co This number concludes the first volume and contains an index The price of this work is but one dollar a year

The State of Massachusetts is paying five per cent interest on moneys which she invested in the Western Railroad, and receiving an annual dividend of eight per cent

The Commissioner of Patents estimates the corn crop of last year at five hundred and forty millions of bushels, worth two hundred and seventy millions of dollars, more than four times the cotton crop

☞ On the first Monday of March, the people of Illinois will also called upon to accept or reject the new Constitution which has been offered to them by their Convention At the same time, two other questions will be submitted to them, relative to the exclusion of the colored population and a two mill tax

☞ There is reason to believe that Chloroform is used for the purpose of intoxication The Boston Medical Journal says that the demand for it almost exceeds belief

The Bonaparte property at Bordentown, N J has been purchased for a seminary boarding house and hotel

☞ On Saturday night no mail was received either from beyond Portland, the mail train having been detained by an accident The mail due last night, with the Portland papers, has not come to hand but in place of them have the old mail due on Saturday night

The Whig members of the Legislature of Maryland have declared in favor of a National Convention for the nomination of candidates for the Presidency and Vice Presidency!

☞ A bill has been introduced in the Kentucky Legislature to levy a specific tax on old bachelors over thirty the proceeds to be applied for the support of indigent widows and orphans

☞ Alexander a Messenger says that there are twelve hundred medical students at the five schools of medicine in the city of Philadelphia

☞ The Richmond Whig endorses the suggestion of the Philadelphia North American, of Abbot Lawrence for Vice President

A society has been formed in Cincinnati to abolish poverty in that city

☞ In all the Northern portion of Maine snow is now from three to four feet deep.

How they sell Milk in Mexico.

The Mexicans have a very honest way of selling milk Instead of carting it about in cans after being sufficiently diluted with river water, they drive the old cow herself around to the doors of the customers and milk out as much as is called for, till they have liked the whole, when they send her home and bring us another

SEVEN DAYS LATER FROM EUROPE.

Arrival of the SARAH SANDS at New York.

Dullness in the Corn and Cotton Markets. More Failures.

New York, Feb 13,
12 o'clock, P M

The Steam Ship Sarah Sands arrived this morning, from Liverpool, having sailed on the 22d of January

She brings seven days later news There is less buoyancy in the commercial world, owing probably, to news from America and the Continent, but there is no reason to regard the duff news otherwise than temporary

The Corn market is quiet and lathess

☞ THE LADIES OF THE UNIVERSALIST SOCIETY, of Bangor, propose to hold a LEVEE at the NEW MARKET HALL, on THURSDAY Evening, February 17th

Refreshments will be provided: and also speaking and singing for the occasion

☞ It is requested that all articles designed for the Levee, should be sent to the Hall, by Wednesday noon

Single Tickets, 50 cts.—for a Gentleman and Lady, 75 cts.—to be had of the Sexton of the Church, and at the Bookstores.

☞ A VOLUNTARY WITNESS FOR JAYNE'S EXPECTORANT

John Van Valkenburgh, Esq, writes to Doctor Jayne, Sept 28, 1846, and says: I would cheerfully accept an Agency for the sale of your family Medicines, because I feel satisfied that if I had not taken your 'Expectorant,' I should before this day have been in my grave In the month of August, 1845, I had a very severe attack of Typhus Fever and Inflammation of my Lungs, which reduced me very low In a few days after my fever left me, and I began to gain strength; I had a bad cough and raised large quantities of matter from my lungs or stomach As my strength increased, my cough also increased I told my physician that I wanted to take your Expectorant.—He thought it was not best

He made me some syrup for my cough, which I took for two or three weeks, but it did me no good. My cough still increased so much that my stomach and lungs felt as if they were all raw, there was such a soreness. I raised a very large amount, and it appeared to me that I was as bad off as many people I have seen in the last stages of consumption I finally concluded that I had the consumption, and that I could not live but a short time. I therefore determined to be my own physician—I sent to Carroll for half a dozen bottles of your Expectorant, and commenced taking it, and in less than twenty-four hours there was quite a change in my feelings and before I had taken the bottles of it, I was restored to my usual health.

I send you a few plain facts in a Letter, in this place. She has told me within three months, that she believes that it has been the means of saving her life If you think what I have stated, or the whole of it necessary, you are at liberty to do so.

Sudden Changes —There is nothing more trying to the human constitution than sudden changes of weather Heat rarifies the blood, and incommodes the perspiration,—but when suddenly checked, these humors which should pass off by the skin, are thrown off inwardly, causing coughs, colds, consumption, difficulty of breathing, watery and inflamed eyes, sore throat and many other complaints.

Wright's Indian Vegetable Pills are a delightful medicine for carrying off a cold—because they expel from the body those humors which are the cause of the above complaints. Four or five of said Indian Vegetable Pills taken every night on going to bed, will in a few days, carry off the most obstinate cold at the same time the digestive organs will be restored to a healthy tone and new life and vigor will be given to the whole frame

Beware of Counterfeits of all kinds! Some are created with sugar others are made to resemble in outward appearance the original medicine The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

Wistar's Balsam of Wild Cherry.

Mr Seth W Fowle,

Dear Sir,—I have been induced at the suggestion of many of my friends, to make known to the public that you, the great benefit I have derived from the use of the medicine called

"*Wistar's Balsam of Wild Cherry*"

in the hope that others suffering from long consumptions may find the same relief from its use that I have done.

The latter part of last summer, and in the fall I suffered greatly from a severe cough, pain in the side difficulty of breathing, loss of appetite, and other symptoms which indicated a rapid decline Three of the most learned and intelligent medical practitioners pronounced my case consumption and said that nothing but a change of climate could be of the least possible benefit to me, as my lungs were in a very inflamed as I discerned state At this time, in hopes I might find a temporary relief for my cough, I bought a bottle of the Balsam which not only gave me the relief that my failing strength required, but seemed to give me new life and energy

After taking several bottles of the medicine, my appetite returned, and with it my strength, my cold entirely left me as also the night sweats, which previous to this had been very profuse In five weeks' time I gained 8 pounds of flesh, and have been able ever since to take my accustomed exercise A walk of from three to four miles a day, and attend to my regular business. I should be most happy to have you refer any one who may wish further particulars, to me at my place of business, No. 305 Washington st. Very truly yours,

Wm H HOLBROOK

WERE RETAILED in Boston by Gardiner Chilson, in the shortspace of six months, and a large number have been sold by myself in this city. It has there real and useful improvements than all others combined. The fire-brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light, (equal to the house brick oven.) The brick is found to be more durable than the iron top. It also equalizes the heat all around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., is complete. The grate clears itself, discharging the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its inviting appearance, substantial construction, and general good qualities, have set it forth to be

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflamation of the Liver and Spleen, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflamation of the Nerves, for the relief of Married Females

THE VEGETABLE PILE ELECTUARY,

Invented by Dr. A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that distressing and painful complaint, the Piles, ever offered to the American public.

Mark this: it is an INTERNAL REMEDY—unlike external applications, and will cure any case of Piles, either blind, bleeding or internal (external and internal) the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and imparts the pure moral health in a remarkable manner.

Each box contains twelve doses, at $1-3 a paper dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger.—All external applications are in the highest degree irritating, and generally aggravate the disease, from the very nature of the disease, temporary in its effects. This Medicine attacks the disease at its source, and REMOVES THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it is found in practice to be far superior to all others, in all diseases of an inflammatory character, with a determination affixed to any particular part or organ; in inflamation and congestion of the Liver, Spleen, Stomach, Bowels, Kidneys and Ulceration of the stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the BEST Medicine ever discovered.

IMPURITY OF THE BLOOD

For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is perceptibly deteriorated to the headpoisoned and ulcerous, DR. UPHAM'S ELECTUARY is unrivalled.

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and requisite evil—the Piles; and to prevent consequence inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c — The Electuary is peculiarly safe for Pregnant Ladies, and the most certain remedy in the world when once used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will remove at once time, a safe delivery, and a sound constitution to the infant.

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL. Medicines no Alcoal, Opodeldoc, Camphor, or other powerful and irritating ingredients. The fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information on respecting this Medicine, may be had of Agents, gratis.

D. F. BEADLE, 130 Washington-st. Boston, General Agent for the New England States.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 4, 1847.

Dr. Upham: My dear Sir—I cannot express to you my gratitude and heartfelt thanks for my recent cure. I have experienced by the use of your truly valuable Pile Electuary I have been a perfect martyr to the bleeding Piles for 10 years past, no machine that I machines reduced to suit a delicate, weak form of body, and general derangement of the digestive organs My eyes also become affected, and in fact I was a nuisance to myself I was obliged to give up my business. I had at all hands medicines of the best order of the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of it, and at the suggestion of my friends I was induced to try one of your medicines. The first I found to relieve me slightly, by, still I persevered, and purchased a second, and I assure you, when I got half through, I felt myself getting well. I still kept on, until I became a well man. My dear Sir, language cannot express the heartfelt thanks that I can cause more restored to health and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHALTON.
